First Certified: 30 April 1996
SAI Certificate No.: QEC7358

Application

IMPORTANT: Before use on fabric, test on a small, inconspicuous area that SPOT WIZ does not change the colour. To do this, dab SPOT WIZ onto fabric then rub with a clean, white cloth. If colour appears on white cloth or if fabric changes, then do not use SPOT WIZ. Do not use on any fabric that is harmed by water or on leather, silk, velvet, corduroy or Indian Cotton.

1. Test fabric is colourfast (see above).
2. Remove as much loose soil and moisture from the area as possible.
 - A. For wet soil: mop up then absorb with clean, white cloth or tissue.
 - B. For dry soil: carefully scrape area to loosen soil, then vacuum up.
3. Apply SPOT WIZ to the remaining spillage using pump spray to dampen the fabric or carpet. Only clean a small area at a time, no greater than 10 cm × 10 cm. Do not overspray or over-wet the fabric.
4. With a clean, damp sponge or cloth work the SPOT WIZ evenly into the spot, working from the outside of the spot towards the centre with firm strokes. Do not rub in circles but in straight strokes. Rinse sponge or cloth frequently to keep clean. Repeat action until all of the spillage is removed. Problem areas may need extra cleaning.
5. Dry the clean area by blotting with clean, white towel, paper or tissue.
6. **IMPORTANT:** when carpet or upholstery has completely dried, vacuum area to remove any dirt-holding residues.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
