

## What is All Fresh?

ALL FRESH is an all-in-one washroom cleaner concentrate with maximum environmental friendliness. ALL FRESH is a forceful cleaner of toilets, washrooms, showers, washroom floors, walls, basins and fixtures. It will deodorise and leave a fresh lime fragrance. ALL FRESH is ideal for use in chemical dispensing systems.

### Key Benefits

- ✓ Outstanding performance in removing bathroom soilage.
- ✓ Automatically dispensed at the correct strength – no guesswork and no waste!
- ✓ Safety in use – colour coded product and bottles make it easy to identify.

## Environmental Care

ALL FRESH is a new-generation cleaning liquid formulated to have an absolute minimum impact on the environment. Consider the following features :

- ✓ FULLY BIODEGRADABLE - Rapidly breaks down into friendly by-products.
- ✓ ALL NATURAL, RENEWABLE INGREDIENTS – ALL FRESH is made from renewable and regrowable resources. Detergents are derived from coconut oil, acids from citrus fruit and malt products and lime oil from citrus fruit.
- ✓ ORGANIC ACID INGREDIENTS – ALL FRESH contains a mild food acid with no irritating fumes, low in corrosiveness and low in toxicity. Cleaners will want to use this cleanser.
- ✓ NO PHOSPHATES, CHLORINE OR INORGANIC ACIDS. ALL FRESH will quickly attack the soil it's intended to, yet it's very sympathetic to both our environment and the product user.

ALL FRESH containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

## How Does It Work?

ALL FRESH is an all-purpose washroom cleaner. It is a forceful cleaner of toilets, urinals and showers, washroom floors, walls, basins and fixtures. ALL FRESH will easily dissolve rust, lime, bio-waste, urine, hard surface scale, soap and fat scum on all washroom surfaces, yet it will not harm Stainless Steel, porcelain, ceramics or glass even during periods of prolonged contact (NOTE: Do not use any acidic products on marble or terrazzo). ALL FRESH is one of the Agar range of cleaning concentrates – fully effective, economical Cleaning Systems for safe, controlled dispensing with a colour coded system.

## Technical Data

### Properties

COLOUR – Transparent blue liquid

ODOUR – Lime perfume

pH = Undiluted, less than 2

FOAM – Thick foam, with good stability

INGREDIENTS — All natural; from renewable resources.

Please note: ALL FRESH is not a disinfectant. Today, Hospital microbiologists agree that it is important to clean surfaces to prevent bacterial growth, thus reducing the need for disinfecting. It has been found that germs and bacteria can build up a resistance to disinfectants, becoming stronger and more resilient. So use ALL FRESH, and help prevent bacterial growth in the first place.

### Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

- Ready-to-use solutions are dispensed from the Agar dispensing equipment. The unit provides a dilution of 1:23 automatically.
- **Toilets and Urinals**  
Pour solution onto surfaces. After a few minutes, scrub with a nylon brush. Rinse clean.
- **Showers and Baths, Basins, Benches, Taps and Walls**  
Apply from the squeeze bottle or with a sponge. Scrub then rinse off after a few minutes.
- **Washroom Floors**  
Soak floor for a few minutes, then mop clean.
- Do not use on marble or terrazzo.

### Safety Directions

Wear rubber gloves if skin contact is likely to occur. Dispenser bottles should always be labelled for easy identification.

### First Aid

If splashed on skin or in eyes, wash thoroughly with water. See a doctor if irritation persists. If swallowed, do NOT induce vomiting. Give egg white and bicarbonate of soda, then seek medical attention. Dispenser bottles and spray bottles should always be labelled for easy identification. Store ALL FRESH in a sealed container in a cool place

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
