

## What is Stainless Steel Oil?

STAINLESS STEEL OIL is a mineral oil blend for protecting steel surfaces. It enables finger-marks and smears to be wiped off easily.

## How Does It Work?

STAINLESS STEEL OIL is a mineral oil blend formulated for protecting stainless steel surfaces. Stainless steel panels around lifts, doorways and escalators in buildings and offices are kept clean and free of fingermarks and smears by applying a very thin film of STAINLESS STEEL OIL. This invisible film enables finger marks and smears to be wiped off easily with a soft cloth.

## Technical Data

### Composition

STAINLESS STEEL OIL contains fine paraffinic oils extended with inert solvents to facilitate spreading to a very thin film.

### Properties

COLOUR – Transparent amber liquid  
ODOUR – Mineral turpentine odour  
FLAMMABILITY – STAINLESS STEEL OIL is FLAMMABLE. Do not use near ignition sources such as cigarettes, fires, heaters, stoves, TV's, computers, welders, etc.

### Dangerous Good Classification

STAINLESS STEEL OIL is a Class 3 flammable liquid.

U.N. No: 1993	CLASS: 3
PACK GRP: III	HAZCHEM: 3[Y]

### Environmental Care

STAINLESS STEEL OIL conforms with all statutory environmental requirements. It is based on safe

ingredients selected to perform efficiently so there is no waste or damage. STAINLESS STEEL OIL is phosphate-free. STAINLESS STEEL OIL containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

### Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".  
First Certified: 30 April 1996  
SAI Certificate No.: QEC7358

## Application

- Apply a small amount of STAINLESS STEEL OIL to a clean cloth.
- Wipe a thin film of the oil onto the steel surface then polish dry.
- Avoid applying an excessive quantity as this may collect dust.
- The surface will now be protected from staining and marking.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
