

What is Softie?

SOFTIE is a rich, creamy cleanser which cleans, sanitises and polishes enamel, stainless steel, laminex, porcelain and chrome surfaces.

Key Benefits

- ✓ SOFTIE is a rich, white cleanser which cleans, disinfects and polishes hard surfaces
- ✓ SOFTIE suspends dirt and soil – dirt wipes away easily
- ✓ SOFTIE has soft abrasives that actually polish surfaces – will not scratch
- ✓ SOFTIE is a thick product which 'clings' to vertical surfaces – this gives extended germ-killing time

How Does It Work?

SOFTIE is a concentrated creamy liquid cleanser with soft polishing compounds and dissolved chlorine. It will remove mould, mildew, soap and fat residues, water stains, greasy finger marks, soap scum build-ups and all other bathroom and kitchen soilage.

For Use On...

SOFTIE is for use on enamel, stainless steel, laminex, porcelain basins and baths, chrome, glass and tile surfaces. Excellent for shower recesses, sinks, toilet bowls, urinals and all hard surfaces. Not suitable for cleaning shiny plastic surfaces.

Technical Data

Composition

SOFTIE contains 6500 ppm. (0.65% m/v) of available chlorine when packed, together with grease-cutting detergents, soft mineral polishing agents and soil suspending components. The balanced blend of cleaning agents and chlorine makes SOFTIE an ideal cleanser with the germ-killing properties of chlorine.

Properties

COLOUR – Thick white creamy liquid
ODOUR – Chlorine odour
pH = 12-13
FOAM – Rich stable lather

Environmental Care

SOFTIE conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. SOFTIE is non-flammable and biodegradable. SOFTIE containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".
First Certified: 30 April 1996
SAI Certificate No.: QEC7358

Application

- Apply SOFTIE directly to a clean, damp cloth and wipe surface with a polishing action.
- Remove any residue with a clean, damp cloth.
- Always replace cap on bottle.

Storage - Important

SOFTIE should be used within one year of the date of manufacture. It should be stored in a cool place away from direct heat or light to prevent chlorine degradation. Once the bottle has been opened, it should be used within one month.

Pack sizes: 500ml, 5L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
